

Dear neighbour .

I am writing this letter to you and your family to introduce myself as the new pre-candidate to Mayor of Calvià for the P.S.O.E.

My name is Alfonso Rodríguez Badal , I was born 45 years ago in Zaragoza and I have been on this Council since the 80s. Here I got married and we have lived in Calvià since then , with our two children as any other family, proud of living in one of the best places on our Island, because of its people, beaches, scenery and promising future.

In my job, as teacher and director of an Institute in Calvià, I had the opportunity of meeting a lot of families and I always thought that they are the real architects that made this a magnificent place to live.

I am conscious that our Calvià is going through great difficulties. Overcoming the touristic crisis that we are suffering must be one of our first challenges ; to do it I am convinced of the importance of having a good and honest Municipal administration that leads the change and helps us to come out of it sooner and better.

Calvià must be again a warming Council, dynamic, innovator, being a touristic reference for all Europe and with a public services of an enviable quality . My engagement is clear and strong; work with passion to have again a Calvià leader. A Calvià of 5 stars .

To make that possible I offer my work, my complete dedication as well as the one from my fellow companions and I ask you to allow me to share your worries, your ideas, suggestions and dreams so we all together can make a better Calvià.

When you want, we can talk about it

Alfonso Rodríguez Badal
